subject: Designation of Rock River Water Trail as a National Water Trail
mailed-by: nps.gov
NWTS, NPS (sent by corita_waters@nps.gov)
to frankschier, me, Nathan

I am proud to let you know that the Secretary of the Interior Ken Salazar has designated the Rock River Water Trail into the National Water Trails System. We are sending out your official letter of designation and certificate, along with trail markers for your use.

We will populate the [national water trails site](#) with your trail information in the next few weeks. I've attached the NWTS logo files for your use. We approve the use of the National Water Trails System logo by the designated Rock River Water Trail. This permission is specifically for this purpose; it is not transferable. The NWTS logo can only be used for educational and promotional purposes; it cannot be used on items that will be sold for profit or on undesignated water trails.

Please do let us know of any events or celebrations on your trail. If you need any additional information or have any additional questions, please contact us. Welcome to the National Water Trail System!

Corita Waters, Coordinator
